Direct flights are mainly for the purpose of returning the Iranians.
	Bazargan/Maku	Allowed		
	Razi/Khoy	Allowed		

Travel Restrictions Imposed by Iran

1. All international arriving passengers are required to present a health certificate together with a negative Molecular (RT-PCR) COVID-19 test result issued in English or certified by Iranian consulate. Necessary arrangements must be made with the airline operators to avoid boarding passengers without the above certificates and should the health certificate not be presented on arrival, the passenger to be returned to the boarding country. In addition, it is necessary to carefully check that the health certificate or molecular test result has been issued not later than 96 hours before departure.

2. In case, at the time of arrival the validity of the issued certificate is expired due to length of travel or other reasons, another test would not be required. However, the passenger would be subject to medical screening and clinical assessment and in case of showing symptoms would be tested again. The passenger will be quarantined in assigned locations until receiving the test result and in case of positive test result, the passenger will be accommodated in assigned quarantine locations for 14 days. Passenger shall incur costs for the test and accommodation.

3. Those returning Iranians who at the time of arrival, have been out of the country for more than two weeks, are also required to present health certificate in English or validated by the Iranian consulate and stamped for Covid-19 molecular test. In case, due to valid reasons confirmed by Iranian consulate in the departure countries, it had not been possible to obtain health certificate or the molecular test, the airlines may conditionally board these passengers; however, passengers will be tested for Covid-19 upon arrival regardless of their clinical symptoms. These passengers must submit Passenger Commitment Letter and self-isolate until receiving the test result. In case of positive test result or showing symptoms, the quarantine period would extend to 14 days. Passenger shall incur costs for the test and probable quarantine.

4. With regards to diplomats, political commissions and local and foreign governmental authorities and international agencies staff, the health certificate and laboratory test from the departure country is not required and they will only be subject to clinical assessment upon arrival. In case of showing any symptoms, these passengers will be tested for Covid-19 and in addition to submission of commitment letter and contact number, they should be in quarantine in respective embassies or determined residence until receiving the test result. This group are not required to incur the cost of testing.

5. All Iranians and international arriving passengers (even representing health certificate) are subject to medical screening upon arrival and in case of showing symptoms or at the discretion of medical teams based in the border health control centers, will be directed to designated medical and diagnostic centers for more clinical assessments and testing.

6. All arriving passengers are required to fill out "COVID-19 Self Declaration Form" provided by the airline operators prior or during the flights and hand over the completed forms to the Airlines' agents. The airline operators are also required to share the list of passengers and completed self-declaration forms at the request of border health control centers.

7. Based on pre-defined procedures, all departing passengers are also required to undergo clinical assessment by a physician or health-care provider prior to departure in one of the designated health centers or at the airport. As per requirements of the destination country, health certificate or negative COVID-19 test result will be issued.

Copies of COVID-19 Self Declaration Form and Passenger

Commitment Letter are attached to WHO circular update No. 182/ 19 August 2020.

Wearing masks at all passenger terminals of Iran airports is mandatory.

Passenger are strongly advised to cross check with their air operators on the latest prerequisites and required documentations.

Imam Khomeini International Airport (IKIA) office can be reached at +9821 5100111 regarding the issues related to health regulations both for incoming and outgoing flights.

International Airlines

Qatar Airways: Currently operates two daily flights in the rout of Doha-Tehran as per the below schedule.

Table with 6 columns: Date, Flight No, Origin, Destination, Departure, Arrival. Rows for QR490, QR491, QR498, QR499.

The Airline also operates four weekly flights in the rout of Doha-Mashhad, four weekly flights in the rout of Doha-Shiraz and two weekly flights in the rout of Doha-Isfahan.

Effective 13 August, Qatar Airways requires passengers travelling from specific countries including Iran to present a negative COVID-19 RT-PCR medical test result when checking in. Tests must be issued within 72 hours before departure, from laboratories that are approved by Qatar Airways, and paid for at the passenger's expense. Those that do not have a copy of their medical test certificate alongside a Passenger Consent Form will not be permitted to travel on Qatar Airways flights. Infants are exempted from PCR test requirements. Children below the age of 12 years are exempt from this test if accompanied by family members that have presented a negative test result. Children under 12 years traveling as Unaccompanied Minor are not exempted and must hold certificate of proof from the authorized medical center. Passengers must possess two copies of the test result and must fill and submit a consent form along with the RT-PCR test result. If passenger is returning within 48 hours from arrival to the country, another test is not required by Qatar Airways, but if the final destination has a government requirement, the new test is still mandatory (Further information at https://www.qatarairways.com/en/travel-alerts/COVID-19-update)

Approved laboratories by Qatar Airways in Iran are: Tehran: 1. Keyvan Lab 2. Khatam-al-Anbia Hospital 3. Day Lab 4. Erfan Niayesh Lab 5. Erfan Hospital Lab 6. Payvand Lab 7. Pars Hospital 8. Nikan Hospital 9. Gholhak Lab 10. Aramesh Lab Isfahan: 1. Nobel Lab 2. Yaran Lab

Mashhad: 1. Mashhad Pathobiology Lab 2. Dr Ejtehad Lab 3. Pardis Lab 4. Dr Daneshgahi Lab

Shiraz: 1. Niloo Lab 2. Raz Lab 3. Payvand Lab

Passengers must check cabin baggage restrictions prior to their travel, with the travel agencies and according to the destination airport's regulations. Wearing masks in the cabin is mandatory.

Emirates Airways

Currently operates one daily flights in the rout of Dubai-Tehran-Dubai, as per the below schedule.

Table with 6 columns: Date, Flight No, Origin, Destination, Departure, Arrival. Rows for Ek977, Ek978.

Emirates in partnership with Allianz Partners provides free

global assistance services related to COVID-19 medical and quarantine expenses for passengers traveling with the airline at any time with effect from 23 July 2020, until 31 October 2020.  **Imposed National and Provincial Restrictions**

Reiterating the World Health Organization’s recommendations that physical distancing, staying home, avoiding unnecessary travel, and wearing masks are the most effective measures to prevent the spread of COVID-19, the National Task Force

on Fighting Coronavirus asked people to avoid traveling on the upcoming holidays, appreciating the majority of people’s adherence to the instructions issued by the task force. Also, sports facilities and gyms, except for indoor swimming pools, can reopen in Tehran after receiving a coronavirus training certificate.
