Research Proposals:

1. The Study of the Misclassification Adjustment in Odds Ratio: Bayesian Approach for the Adjustment of Misclassification and Missing Data in the Association between Maternal Smoking during Pregnancy and Children Asthma .
2. The Study of Spatial Model of Colorectal Cancer in Arak in 2009-2015: Population-Based Cancer Registry
3. The Study of Spatial Model of Gastric Cancer in Arak in 2009-2015: Population-Based Cancer Registry
4. The Effect of family history of breast cancer on Breast Cancer: Adjusting for Exposure Misclassification by Bayesian Methods
5. Risk factors of osteoporosis and General Health Status among women over 50 years in Sanandaj
6. The estimate of Gene-Environment Interaction for female breast cancer: case control and case only studies
7. The prevalence of tinnitus in adults referred to Arak occupational medicine centers in 2016
8. Concurrent validity and reliability of the Persian version of Eating and Drinking Ability Classification System for patients with cerebral palsy in the city of Arak
9. Determination of the Prevalence of Musculoskeletal Disorders and their Severities among Education Office Staff, in Arak in 2016-17 .
10. Translation, cultural adaptation and validity of the Persian version of Eating and Drinking Ability Classification System (EDACS) for patients with cerebral palsy in the city of Arak
11. Determination of Manual Ability level in topographical distribution of Cerebral Palsy in children aged 4-12 years in the city of Arak in 2016
12. Comparison of parenting role& 39;s tasks in parents of healthy children with parents of children with handicap (mental - physical) lees than 7 years old in the city of Arak .
13. Determination of anthropometric dimensions related for educational designing among Arak university of medical sciences students
14. Survey prevalence of specific reading disabilities among Arak governmental primary school students .
15. Study of Density and variety of Bioaerosols and its Relation with Concentration of Air Particulate Matters in Different Wards of Vali-e-Asr Educational Hospital, Arak, Iran.
16. The Study of effect of paromomycin in the treatment of cutaneous leishmaniasis: a Systematic Review on Randomized Clinical Trials .
17. The effect of social networks based education on stress management of pre-hospital emergency personnel.
18. The effect of education based on the theory of planned behavior in mothers with girls under the age of 2 years old in promoting preventive behaviors of urinary tract infection.
19. Investigation of the relationship between air pollution with cardiovascular and respiratory diseases in the city of Shiraz, 2016.
20. The effects of education based on the theory of planned behavior in promoting on dietary behavior prevention of anemia in pregnant women.
21. EFFECT OF EDUCATION BASED IN BEHAVIOR PROMOTIONS ORAL HEALTH BY HEALTH BELIEF MODEL IN DIABETICS TYPE II PATIONS.
22. The Effect of combine Education methods on self efficacy and self-care oral health behavior among school children 6 to 12 .

23. The Study of Validity, Reliability and Cultural Adaptation of ECOS-16 questionnaire in Sanandaj, Iran
24. The Study of pollution of hard ticks to Crimean Congo Hemorrhagic fever virus in Kurdistan province, Iran.
25. Hot spot analysis of Stomach and Esophagus cancers in Kurdistan province in 2000-2013
26. Identification and Evaluation of Human Errors among the Personnel of Clinical Laboratories Affiliated to Arak University of Medical Sciences Using SPAR-H and SHERPA Techniques.
